MB-EC-TRIAL-3M

Weidmüller Interface GmbH & Co. KG
Klingenbergstraße 26
D-32758 Detmold
Germany

www.weidmueller.com

ModelBuilder by Weidmüller empowers machine and process experts to create powerful machine learning models—without any programming skills. The software guides users step by step through data import, visualization, and model training. Models can be built quickly, deployed locally or in the cloud, and flexibly optimized. This enables you to improve processes, enhance product quality, and unlock new business opportunities—using only your domain expertise.
