

ModelBuilder by Weidmüller empowers machine and process experts to create powerful machine learning models—without any programming skills. The software guides users step by step through data import, visualization, and model training. Models can be built quickly, deployed locally or in the cloud, and flexibly optimized. This enables you to improve processes, enhance product quality, and unlock new business opportunities—using only your domain expertise.

Allgemeine Bestelldaten

Best.-Nr.	2819870000
Art	MB-MA-AZ-03

Technische Daten**Abmessungen und Gewichte**

Nettogewicht	0 g
--------------	-----

Umweltanforderungen

RoHS-Konformitätsstatus	Nicht betroffen
REACH SVHC	Keine SVHC über 0,1 Gew.-%
