DMC 12/27 MC SDR

Similar to illustration

The DMC markers can be used for labelling switching devices or sub-assemblies. The large (12 x 27 mm) marking surface offers sufficient room for information describing the device and its function. Only one tag size for cable cross-sections from 0.5 – 10 mm2 enables use on both multi-core control cables and single cores. For custom printing: Please send us a file of our labeling software M-Print PRO or M-Print PRO Online (without installation) for your labeling specifications.
