Relay modules with forcibly guided contacts  
Relays with forcibly guided contacts have a 99 % diagnostics coverage and an excellent reputation for use in safety systems. The contacts interlock mechanically with each other in order to ensure a synchronous switching status of both contacts. This guarantees that the alert contact will maintain the same switching status in the event of an error (for example, if the working contact welds from an overload). The controller (or safety controller) detects the alert contact and then compares the set values and actual values. If a difference occurs, measures can then be taken to protect equipment and human life.

- 2 CO contacts with 6 A, forcibly guided according to EN 61810-3 type B
- Proven component in safety technology
- Diagnosis coverage of 99 %

**General ordering data**

Version	RIDERSERIES RCI, Retaining clip
Order No.	<a href="#">1132090000</a>
Type	SRC-I CLIP HM RCI
GTIN (EAN)	4032248912209
Qty.	20 items

## SRC-I CLIP HM RCI

Weidmüller Interface GmbH &amp; Co. KG

Klingenbergstraße 26

D-32758 Detmold

## Technical data

## Approvals

ROHS	Conform
------	---------

## Dimensions and weights

Net weight	0.44 g
------------	--------

## Temperatures

Storage temperature	-40 °C...85 °C	Ambient temperature	-40 °C...85 °C
Operating temperature			

## Environmental Product Compliance

RoHS Compliance Status	Compliant without exemption
REACH SVHC	No SVHC above 0.1 wt%

## General data

Version	for high relays	Basic material	metal
Colour	silver
