For standard industrial applications (non-hazardous areas), PROFIBUS PA junction boxes and limiters are available as 1-way, 2-way, 4-way, and 8-way distributors. FBCon limiters are designed to protect connected field devices from over voltages and short circuits. As voltage-limiting protective elements, suppressor diodes are used. Due to the integrated current limitation, the segment is also protected against short circuit on a spur line. EMC cable glands, protection class IP66 and a wide operating temperature range safely protect your connections in harsh environments.

Functionality

- EMC cable glands for trunk and spurs
- M12 connector for spurs
- External earthing stud
- Pressure equalizing element
- Protection class IP66
- Aluminium and stainless-steel versions
- Profibus PA / Foundation Fieldbus compatible

Note: The use of FBCon products with aluminum enclosures and / or M12 connectors is not recommended in strongly saline environments.

Part description

Product description The device is an active field distributor for the fieldbus systems Profibus PA and Foundation Fieldbus H1. The device complies with protection class IP66/IP67. Functional description The device connects up to eight field devices with one fieldbus segment. An adjustable current monitoring per spur line protects the trunk line from short circuits or overload (see figure B1). Suppressor diodes protect the connected field devices from surge voltages. The M20 cable glands

of the trunk line have two sealing levels for armoured cables. The armouring can consist of steel wire (SWA, Steel Wiring Armouring), steel tape (STA, Steel Tape Armouring) or steel wire braiding (SWB, Steel Wire Braiding). Non-armoured cables can be connected as spur lines. The device FBCon * R-T has M16 cable glands for the spur lines. The device FBCon * R-TS has M20 cable glands for the spurs. Stainless-steel screw inserts integrated into the cover gland allow the device to be used in saline atmospheres. A red LED indicates a short circuit or overload on the spur line. A green LED indicates sufficient voltage supply on the trunk line. The device supports earthing concepts with multi-point screen earthing or single-point screen earthing. The earthing concepts are explained in the Profibus PA and Foundation Fieldbus guidelines.

Accessories

Brass blanking plugs, round head IND

In addition to cable glands for a wide range of applications, the product portfolio is rounded off by plugs, pressure compensation elements, adaptors and the corresponding accessories such as locknuts, sealing rings, flat washers and earthing rings.

General ordering data

Type	VP 9-MS65	Version	
Order No.	0294700000	VPMS (blanking plug in brass), Blanking plug, in closed state, PG 9, 5	
GTIN (EAN)	4008190005887	mm, Brass, nickel-plated	
Qty.	100 ST		

IP68 version

In addition to the extensive range of enclosures, Weidmüller offers a variety of cable glands for a wide range of applications. The cable glands made of brass, plastic and stainless steel meet the most various IP protection classes to suit any industrial enclosure. Depending on the series of cable glands and the application, the cable glands are approved and tested according to VDE, UL, UR, cULus, DNV GL or EN 45545.

General ordering data

Type	VG 9-MS68	Version	
Order No.	1569070000	VG MS (standard brass cable gland), Cable glands, straight, PG 9, 6
