U-OS-PWEB-ES-RT-2000/5

PROCON-WEB Embedded System is easy to install on u-OS through the app manager.

To implement the optimal web-based HMI solution, PRO-CON-WEB Embedded System offers the following features:

- Roles and rights based user management
- Extensive alarming
- predefined controls, such as buttons, sliders, text fields or image areas
- powerful more complex controls, like iframes, charts, tables
- flexible scripting for maximum flexibility
- Historian functionality for storage and visualization of historical data
- connection to the controller via communication driver

General ordering data

Version	Visualization software, Platform for runtime system: u-OS compatible devices, Number of process variables, max.: 2000, Number of HMI-devices, max.: 5
Order No.	2942010000
Type	U-OS-PWEB-ES-RT-2000/5
Qty.	1 items

U-OS-PWEB-ES-RT-2000/5

Technical data

Dimensions and weights

Net weight	0 g

Environmental Product Compliance

RoHS Compliance Status	Not affected
REACH SVHC	No SVHC above 0.1 wt%

Features of the runtime

Number of HMI-devices, max.	5	Maximum number of drivers	1
Projectable by	PROCON-WEB Designer	Runtime features	Simple and complex controls, Alarming, Historian, User-Management, Process connection via communication drivers

Licence information

Licence coverage	One-time licence	Licence type	Software licence
Licensing by	WIBU Ticket ID	Number of process variables, max.	2000

System requirements

Operating system	u-OS	Minimal disk space needed	0.1 GB
Minimal memory (RAM) needed	0.1 GB
