Isolating amplifiers, passive isolators, limit switches and measuring transducers – including temperature transducers – in a terminal-block design.

Ideal for precise signal processing and reliable signal isolation in limited installation space.

- Compact 6 mm design – as flat as a terminal block
- Operating temperature up to  $-40\text{ °C}$  ...  $+70\text{ °C}$  (model-dependent)
- Versions with screw or PUSH IN connection
- Selected models include QR code and status LED for easy identification
