Devices in this series display universal analogue process values.

Depending on the version, the devices convert/isolate the signals into an analogue current signal and have additional limit value relays which switch further signals.

Features:

- Several sensor variants can be processed.
- An auxiliary power supply is required.
- Even in unfavourable lighting conditions, the display value is clearly visible.

General ordering data

Version	Display, Hood, Input : Protective cover for ACT20D-... Process value indicator, Output : Potentiometer, Temperature, thermocouple
Order No.	2964330000
Type	PROTECTIVE COVER
GTIN (EAN)	4099986768086
Qty.	1 items
