PROCON-WEB Embedded System is easy to install on u-OS through the app manager.

To implement the optimal web-based HMI solution, PROCON-WEB Embedded System offers the following features:

- Roles and rights based user management
- Extensive alarming
- predefined controls, such as buttons, sliders, text fields or image areas
- powerful more complex controls, like iframes, charts, tables
- flexible scripting for maximum flexibility
- Historian functionality for storage and visualization of historical data
- connection to the controller via communication driver

### General ordering data

Version	Visualization software, Platform for runtime system: u-OS compatible devices, Number of process variables, max.: 250, Number of HMI-devices, max.: 1
Order No.	<a href="#">2987740000</a>
Type	U-OS-PWEB-ES-RT-250/1_FREE
Qty.	1 items

**Technical data**

**Dimensions and weights**

Net weight 0 g

**Environmental Product Compliance**

RoHS Compliance Status Not affected  
 REACH SVHC No SVHC above 0.1 wt%

**Features of the runtime**

Number of HMI-devices, max. 1

**Licence information**

Number of process variables, max. 250

**System requirements**

Operating system u-OS Minimal disk space needed 0.1 GB  
 Minimal memory (RAM) needed 0.1 GB

**Classifications**
