PROCON-WEB Embedded System is available platform independent via container image, Linux or Windows. To implement the optimal web-based HMI solution, PROCON-WEB Embedded System offers the following features:

- Roles and rights based user management
- Extensive alarming
- predefined controls, such as buttons, sliders, text fields or image areas
- powerful more complex controls, like iframes, charts, tables
- flexible scripting for maximum flexibility
- Historian functionality for storing and visualizing historical data
- connection to various control systems via extensive communication driver portfolio (OPC-UA, CODESYS driver or via Modbus)

**General ordering data**

Version	Visualization software, Platform for runtime system: Linux, Docker, Windows, Number of process variables, max.: 2000, Number of HMI-devices, max.: 5
Order No.	<a href="#">2992880000</a>
Type	PWEB-ES-RT-2000/5
Qty.	1 items

**Technical data**

**Dimensions and weights**

Net weight 0 g

**Environmental Product Compliance**

RoHS Compliance Status Not affected  
 REACH SVHC No SVHC above 0.1 wt%

**Features of the runtime**

Number of HMI-devices, max.	5	Maximum number of drivers	99
Projectable by	PROCON-WEB Designer	Runtime features	Simple and complex controls, Alarming, Historian, User-Management, Process connection via communication drivers

**Licence information**

Licence coverage	One-time licence	Licence type	Software licence
Licensing by	WIBU Ticket ID	Number of process variables, max.	2000

**System requirements**

Operating system	Linux, Windows, u-OS	Minimal disk space needed	0.1 GB
Minimal memory (RAM) needed	0.1 GB		

**Classifications**
