Add-on Package

ResMa® Import Package

With the ResMa® Import Package, you can automatically import energy, production, and quality data from various sources into a centralized system. This saves time, reduces manual errors, and ensures you always have access to all relevant information – enabling efficient and straightforward data analysis in your daily operations.

Your benefits:

- Automatic import of time series data from third-party systems
- Centralized analysis of all data in one system
- Support for external data sources such as MS SQL Server and CSV
- Configuration of individual import jobs
- No more manual effort – retrieve and analyze data at the push of a button
