Add-on Package

ResMa Regression Analysis helps you evaluate the impact of energy and process optimizations by eliminating disruptive factors like weather conditions. With powerful correlation analysis, you can identify key relationships, generate accurate forecasts, and use virtual sensors for quality monitoring. Visualize savings, make informed investment decisions, and meet ISO 50006 and ISO 50001 standards—all in one smart tool.

Your benefits:

- Standards-compliant evaluation (ISO 50006 & ISO 50001)
- Clear visualization of optimization effects in energy and processes
- Reliable basis for investment decisions
- Identification and elimination of disruptive influences
- Forecasting and virtual sensor functionality
