PROCON-WEB Embedded System is easy to install on u-OS through the app manager.

To implement the optimal web-based HMI solution, PROCON-WEB Embedded System offers the following features:

- Roles and rights based user management
- Extensive alarming
- predefined controls, such as buttons, sliders, text fields or image areas
- powerful more complex controls, like iframes, charts, tables
- flexible scripting for maximum flexibility
- Historian functionality for storage and visualization of historical data
- connection to the controller via communication driver

General ordering data

Version	Visualization software, Platform for runtime system: u-OS compatible devices, Number of process variables, max.: 250, Number of HMI-devices, max.: 2
Order No.	3038630000
Type	U-OS-PWEB-ES-RT-250/2
Qty.	ST

Technical data

Dimensions and weights

Net weight 0 g

Environmental Product Compliance

RoHS Compliance Status Not affected
 REACH SVHC No SVHC above 0.1 wt%

Features of the runtime

Number of HMI-devices, max. 2

Licence information

Number of process variables, max. 250

System requirements

Operating system u-OS Minimal disk space needed 0.1 GB
 Minimal memory (RAM) needed 0.1 GB
