This product is only available in combination with a u-view Advanced Touch Panel

HMI runtimes for u-view Advanced Touch Panels

By combining u-view Advanced Touch Panels with the web-based HMI software PROCON-WEB Embedded Systems, the perfect visualization solution is created – powerful software meets high-quality hardware.

To implement the optimal web-based HMI solution, PROCON-WEB Embedded Systems offers the following features:

- Role- and rights-based user management
- Comprehensive alarming
- Predefined controls such as buttons, sliders, text fields, or image areas
- Powerful complex controls such as iframes, charts, tables
- Flexible scripting for maximum adaptability
- Historian functionality for storing and visualizing historical data
- Connection to the u-OS controller via communication driver
