Part description

Product description	<p>The ACT20P-VIX-CO-OLP-S single-channel fixed passive isolator isolates and converts analogue standard signals. An analogue input voltage signal is linearly converted into an analogue output current signal and galvanically isolated. The device is powered via the output current loop.</p> <p>Features</p> <ul style="list-style-type: none"> • 2-way galvanic isolation between input and output.

ESG is the tried-and-tested marker in MultiCard format for use on many well-known electrical devices. The result is high-quality device marking with a high-contrast appearance.

Various types are available for devices from manufacturers like Siemens, ABB, Beckhoff etc.

Advantages at a glance:

- Tags for universal usage, self-adhesive or clip-on tags, depending on type
- For aligned equipment, e.g. circuit breakers, we supply ESG markers for clipping onto tag rails
- Individual laser-quality printing according to specifications

For custom printing: Please send us a file of our labeling software M-Print PRO or M-Print PRO Online (without installation) for your labeling specifications.
