Weidmüller's professional tools are the result of an intensive development process that has been specifically focussed on the requirements of their use in practice. We offer many useful tools, e.g. no-contact tools, crimping pliers and fibre optic tools, that help you work safely and precisely for an optimised installation of heavy-duty connectors.

Germany[www.weidmueller.com](http://www.weidmueller.com)**Accessories****EMC Brass cable gland acc. to EN 45545**

The increasing sensitivity of electronic components and the increasing electromagnetic interference frequencies require cable glands to play an important role in the shielding concept of a system. This type of EMC cable glands are made for shielding against interference frequencies, with a 360° screening connection. A Finger-locking seal provides superior cable retention & strain relief, next to it, the cable gland meets the mechanical requirements of EN 62444. Due to the patented design a very easy and fast assembly will be possible.
