The PLUGCONTROL PAS CMRs present a simple, cost-effective solution for monitoring DC currents up to 10 A. The monitoring relay (REED contact) comes attached to a standard base so that it can be mounted on a TS35 DIN rail. Current monitoring of valves, servo-controls and DC motors are typical applications for these modules.

WS markers are the perfect match for the W-series connectors. Thanks to their system compatibility, the WS tags can also be used with the I-series and the Z-series. The large marking surfaces do not only permit long character strings but also multi-line text. WS markers are ideal for labels with long, customised character strings. Thanks to the proven MultiCard format, printing with PrintJet CONNECT oder/or Plotter is possible.

- Can be fitted in strips or individually
- Markers in proven MultiCard format

For custom printing: Please send us a file of our labeling software M-Print PRO or M-Print PRO Online (without installation) for your labeling specifications.
